

# Notice of Separate Billing

Your physician may order laboratory services for you while you are in our facility. Laboratory services are handled by LabCorp, and billing for these services will from LabCorp, not this office. Please be advised that some insurance companies mandate where your lab tests can be performed. The physician in this facility may be in-network with your insurance company but LabCorp may not be. The same may be true for outside laboratories that your insurance does not cover.

If you have any questions, please call your insurance provider, and thank you for choosing UNC Physicians Network.
